

Health Savings SolutionSM

In this era of escalating healthcare costs, Health Savings Accounts (HSAs) are rapidly gaining popularity among employers and employees.

Employers and employees can reduce their insurance premiums and increase their tax benefits by pairing an HSA with a High Deductible Health Plan. Employer contributions to HSAs can provide a tax benefit and help deliver more benefit dollars directly to employees.

HSAs allow employees to contribute and save pre-tax dollars for qualified medical expenses. Employees can carry over unused balances from year to year. Earnings grow tax-deferred and distributions are tax-free when used for qualified medical expenses. Finally, HSAs are portable and remain the responsibility of the individual accountholder.
